

# Life Group Gatherings

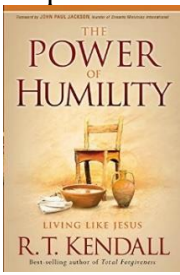

## Spring 2018 (January – June)

**Life is Better Together!** It isn't meant to be lived in isolation. It's one thing to show up to family functions, grab dinner with friends, and shoot the breeze around the water cooler. But where is the space in which the guard comes down and it's safe to be completely open and honest about our struggles and questions? Imagine having a circle of people to meet us in that space. Imagine no more! Life group gatherings are that space! Get connected today!
